

Sportur Club Hotel Safe Holiday

SIGNS AND SOCIAL DISTANCING

All of our spaces, both in the hotel and on the beach of Fantini Club, are arranged to guarantee the recommended social distancing. To protect your health and that of others, appropriate signs are located everywhere, inside and outside of our Hotel. We are sure that, with your cooperation, your holiday will still be unforgettable and exciting as always.

CLEANING AND DISINFECTION PROCEDURES

Our high standard of cleanliness have been increased following the OMS protocol of disinfection procedures. Hydroalcoholic sanitizers 75% are located at the main public areas and cleaning products with hydrogen peroxide are used for sanitizing the hotel environments.

PPE (Personal Protective Equipment)

Our staff uses the personal protective equipment required by the WHO protocols to protect our health and the one of our clients.

DIGITAL SERVICES

For people who want to avoid the check-in process we have introduced a fast online check-in. In addition, the digitalization of the Restaurant service with an online menu helps us limit contacts due to paper tools.

RESTAURANT

All of our spaces are organized to keep you safe maintaining the right social distance and to let you enjoy your holiday in a quiet and peaceful way. Our large dining room is arranged with 50% of seating in our garden. Inside, our big windows offer streaming fresh air. In addition, our self service areas have been replaced with the table service also during breakfast to limit gatherings of people.

HOTEL LOBBY & BEACH

Surrounded by big windows our lobby constantly offers streaming fresh air. Thanks to our 35.000 mq of beach we can always ensure significant distance between parasols.
